Hybrid Power

Hybrid power refers to a versatile energy system that allows you to choose between using dry cell batteries or rechargeable batteries, depending on your needs. This flexibility offers greater convenience, ensuring that you have the power you need when you need it.

Dual Color Temperature + Red

3000K warm light offers superior visibility in foggy and rainy conditions, minimizing glare and snow reflection. In contrast, 6500K cool white light provides a crisp, invigorating view ideal for extended hikes or runs. Red light helps protect night vision, avoids disturbing people, animals, or bugs nearby, and can be used as an emergency signal.

- **Battery**
